

Engineering: Organised and Ready for Year 10 Summer Exams

Being Organised

Every pupil has a file containing all coursework undertaken so far **THIS IS THE BEST PLACE TO START REVISION**. All teaching power points for the exam assessment (EA) can be found in 'files' in Microsoft Teams. Use these to help with revision.

Content

Students will be assessed on 4 areas: engineering disciplines, health and safety in the engineering environment, SI units and equations and material properties and characteristics.

Revision

Please plan your free time to block in revision sessions for engineering. Use Teams and the resources that have been prepared for you. Do not revise things that you know, instead, focus on areas that you feel less confident about. Speak to your teacher if you would like to use extra time at lunchtime, we are here to help.
